

We've made some changes

New space

Our summer holidays are over and it is time for a new season. We recently moved to our new facility in Solna, if you are in the area, please stop by for a visit!

Pelago Bioscience AB

Banvaktsvägen 20
171 48 Solna, Sweden

Jakob in the heart of Pelago

New collaborations

WuXi AppTec, a leading open-access R&D capability and technology platform company serving the global pharmaceutical, biotechnology and medical device industries, is collaborating with us to provide target engagement assays with our patented Cellular Thermal Shift Assay (CETSA®) method. [Read the full details.](#)

New publications

In a study published just before the summer CETSA licensee Pfizer compare CETSA with a chemical probe reporter assay and very clearly show, and conclude, that the cellular thermal shift assay should be the first choice assay to determine in-cell target engagement. Even more recently Pelago Bioscience coauthored, together with scientists at AstraZeneca and University of Sheffield, a study in Nature Chemical Biology where CETSA was used to provide important proof of cellular target engagement of compounds targeting Fen-1. Please follow the links for the [Pfizer](#) and [Fen-1](#) papers.

NEW DESIGN Pelago Bioscience have, together with ESSENSEN, created our new, modern and contemporary logo and visual design. Enjoy this first newsletter in the new design.

TARGET PROFILE

4 new opportunities for us to meet

STOCKHOLM WATERFRONT

14-15 SEPTEMBER 2016

We are attending Nordic Life Science Days 2016. The Nordic region is proud to host some of the world's most innovative biotech, medtech and pharma companies. Set in the idyllic city of Stockholm, the conference offers conference sessions, panel discussions, company presentations, exhibition, face-to-face meetings and unique receptions, providing so many opportunities to network with peers, potential partners and investors.

THE LANGHAM HUNTINGTON, PASADENA, LOS ANGELES, CA

19-20 SEPTEMBER 2016

We are flying to California for The Discovery Summit. It is the premium forum bringing senior drug discovery executives and solution providers together. As an invitation-only event taking place behind closed doors, the summit offers an intimate environment for a focused discussion on state of the art solutions, technology and information to shape the future of the industry.

ACC, LIVERPOOL

13-14 OCTOBER 2016

Will you attend the ELRIG Drug Discovery meeting? It is the premier meeting in Europe for scientists from industry, biotech and academia engaged in pre-clinical drug discovery. First established in Nottingham in 2006, the meeting this year expects over 1,200 delegates and 80 exhibiting companies, bringing together world-leading scientists to discuss cutting-edge advances in the application of laboratory technology, disease biology, and development of novel chemical and biological candidate drugs. Pelago Bioscience will be there and CETSA will make a big splash.

KAROLINSKA INSTITUTET, AULA MEDICA, STOCKHOLM

10 NOVEMBER 2016

Meet us at Bioscience – Research through innovative Technologies. The meeting will include a series of interesting lectures focusing on new technologies and applications as well as the latest advances and results in research. Providing a platform for meetings and networking, the event is aimed at parties in both industry and academia. The seminar programme comprises a series of brief, interesting presentations intended to stimulate curiosity and a continued dialogue among delegates on the exhibition floor.
